tech makes us more and more idiotic

2 nerds try to explicate emp of ice cream

get back frm amsterdam and everywhre --inst transla
ugly lang

also tw articles that is too much to wade through

run through simp program: WS was a poet. He wrote poems. He
also worked in insurance. He had a good imagination and
wrote on it.

thref emp of ice c is emp of imagination? And imag is like icecream;
now you have it; now you don't

Well, you consume it! So you consume your imagination.

dial and computer messages

They so PRETENTIOUSLY sazy such explication isn't worth their time.

You have to forgive people for what they did before computers.
